EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Comment on Submissions

1. This Office Action is responsive to submissions of 12 October 2004.
2. The examiner acknowledges consideration of the International Preliminary Examination Report.

Information Disclosure Statement

3. The references cited in the Search Report in International Application PCT/IL03/00414 have been considered, but will not be listed on any patent resulting from this application because they were not provided on a separate list in compliance with 37 CFR 1.98(a)(1). In order to have the references printed on such resulting patent, a separate listing, preferably on a PTO-1449 form, must be filed within ONE MONTH of the mailing date of this communication. NO EXTENSION OF TIME WILL BE GRANTED UNDER EITHER 37 CFR 1.136(a) OR (b) to comply with this requirement.

Allowable Subject Matter

4. Claims 1-21 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 13, the prior art does not teach or fairly suggest a focal plane array for IR imaging (claim 1) or method of digitally quantifying IR radiation on a focal plane array (claim 13), as specifically claimed, and including at least a peripheral block comprising a comparator for on/off switching a digital controller and a digital to analog converter controlled by the controller which provides an appropriate amount of charge to cancel out the charge accumulated in a pixel capacitor. The examiner notes that while it is generally

known in the art to include some sort of charge correction and/or charge trimming/skimming in conjunction with infrared detectors (see for example Kleinfelder *et al.*-- "Focal plane array readout integrated circuit with per-pixel analog-to-digital and digital-to-analog conversion." and Levy -- US 6,147,340), such prior art does not disclose or fairly suggest the readout/analog-to-digital conversion arrangement as specifically recited.

The remaining claims are allowed on the basis of their dependency.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
